Fresenius Kabi's Propofol

Leader in lipid technology

#1

Oleic acid functioning
as a co-emulsifier to ensure
stability of the dispersed
oil droplets.³

#2

No preservatives.
Disodium edetate (EDTA) was added
to the originator Propofol to inhibit
microbial growth. However, it does
not allow for the neglect of aseptic handling.
Safe handling remains the same in all
Propofol formulations.³

#3

MCT/LCT in a 1:1 ratio
for improved fat metabolism
& reduction in pain
on injection.^{1,2}

MCT: Medium-chain triglycerides | LCT: Long-chain triglycerides

	Fresenius Kabi's Propofol	Originator Propofol
Excipients	<p>Soya bean oil</p> <p>Medium chain triglycerides</p> <p>Purified egg phosphatides</p> <p>Glycerols</p> <p>Oleic acid</p> <p>Sodium hydroxide</p> <p>Water for injection</p>	<p>Soya bean oil</p> <p>-</p> <p>Purified egg phosphatides</p> <p>Glycerols</p> <p>-</p> <p>Sodium hydroxide</p> <p>Water for injection</p>
Lipid Profile	MCT (coconut oil): LCT (soya bean oil)	LCT only (soya bean oil)
Preservative	None	Disodium edetate (EDTA)

Overview

Greetings from the Kenya Society of Anaesthesiologists and the College of Anaesthesiologists of East, Central and Southern Africa (CANECSA).

The conference secretariat, executive and scientific committees are pleased to invite you to attend and partner with us at the **32nd KSA and 3rd CANECSA Annual Scientific Conference from 19th-21st November, 2025 at Pride Inn Convention Center, Shanzu, Mombasa.**

This year's conference is set to be our largest event to date! The conference will offer unparalleled opportunities for exposure and increased visibility locally and across the region. This prestigious gathering will attract a record number of delegates from across the East, Central and Southern Africa region, including renowned faculty, consultant anaesthesiologists, residents, fellows and all anaesthesia professionals.

With unmatched opportunities for exposure and networking, this event is the ideal platform to showcase your brand and engage with the highest number of participants we've ever hosted. Don't miss the chance to be part of the most significant conference in the region's anaesthesiology calendar!

The theme for the conference is Advancing Safe Anaesthesia: Precision Medicine.

We thank you for your continued commitment and support to the profession and in advancing Safe Anaesthesia.

About Us

KSA is a registered association of qualified medical practitioners practicing in the field of Anaesthesia in Kenya.

KSA was registered on the 21st of September 1994 under the societies act. Its operations are governed by a constitution

which establishes a council and an Annual General Meeting (AGM). The society is affiliated with the International World Federation of Societies of Anaesthesiologists (WFSA). We have 201 full members and 65 associate members.

CANECSA is a college of Anaesthesiologists of East, Central and Southern Africa. Constituent countries are Democratic Republic of Congo (DRC), Ethiopia, Eswatini, Kenya, Malawi, Rwanda, Tanzania, Uganda, Zambia and Zimbabwe. CANECSA aims to advance education, standards and research in safe anaesthesia and critical care for the people of East, Central and Southern Africa.

Welcome Message

Dear Delegates, Faculty,
and Exhibitors,

On behalf of the
Executive Committee
of the Kenya Society
of Anaesthesiologists
(KSA), it gives me great
pleasure to extend a

warm welcome to the 32nd
KSA and 3rd CANECSA Annual Scientific
Conference. This year's event, taking
place from November 19th to 21st at the
Pride Inn Convention Centre, Shanzu –
Mombasa, promises to be an enriching and
memorable experience both scientifically
and socially.

Our conference theme, "Advancing Safe
Anaesthesia: Precision Medicine," reflects
our continued commitment to promoting
and upholding the highest standards in
anaesthesia practice, with patient safety
at its core. The programme features a
distinguished lineup of both local and
international faculty who bring a wealth
of knowledge and experience. Their
contributions will undoubtedly inspire
meaningful discussions and enrich our
collective practice.

This year's subthemes have been carefully
curated to foster insightful dialogue,
collaboration, and innovation across a wide
range of areas in anaesthesia and critical
care. In addition, the hands-on workshops
offer participants valuable opportunities
to acquire practical skills and explore
emerging trends in our field.

A highlight of this conference will be
the CANECSA Graduation Ceremony, a
momentous occasion for our graduates
and the wider medical community. Now
in its third year, and proudly featuring
Kenyan graduates for the first time, this
ceremony marks the culmination of
years of dedication, clinical excellence,
and academic achievement. We extend
our heartfelt congratulations to all the
graduates and their mentors.

Please be sure to attend the plenary
sessions, which feature thought-provoking
topics designed to challenge, inspire, and
empower. I encourage all delegates to
actively participate, exchange ideas, and
build meaningful networks that may lead to
future collaborations.

To our partners and exhibitors, we extend
our sincere gratitude for your steadfast
support and for showcasing the latest
innovations and technologies that continue
to advance the practice, training, and
education of anaesthesia. Your partnership
remains invaluable to the success of
this conference and the growth of our
profession.

Finally, to all delegates, thank you for
your commitment and participation,
which make this gathering possible. May
this conference be an opportunity to
learn, share, grow, and rejuvenate both
professionally and personally. I wish
each of you a rewarding and memorable
experience in Mombasa.

Dr. Victoria Simiyu
Chair, KSA

Welcome Message

It is my great pleasure to welcome all delegates, speakers, facilitators, partners, and exhibitors to this Joint Scientific Conference

of the College of Anaesthesiologists of East, Central and Southern Africa (CANECSA) and the Kenya Society of Anaesthesiologists (KSA).

Our theme this year, "Advancing Safe Anaesthesia: Precision Medicine", is especially relevant. Throughout our region, we encounter a variety of clinical, logistical, and systemic obstacles in providing safe perioperative care. Precision medicine gives us an effective approach to tackle these issues by customizing care to each patient's unique needs, using data-driven decisions, and adopting new technologies to reduce inconsistencies, enhance outcomes, and improve patient safety.

This conference provides a valuable opportunity to reflect on how these principles can be applied within African health systems. Through keynote lectures, symposia, panel discussions, hands-on workshops, and scientific presentations, we will explore innovative approaches that elevate our clinical practice while remaining grounded in the realities of our settings. I encourage all participants to actively contribute - ask questions, exchange ideas, and forge new professional relationships that will strengthen anaesthesia and critical care across our region.

We are equally grateful to our partners and exhibitors whose ongoing support enriches our educational mission. Your participation underscores the shared commitment of industry and professional bodies to advancing safer, more effective anaesthesia care for all.

A major highlight of this meeting is the CANECSA Graduation Ceremony, where we honour our newest Fellows. Your success is a testament to hard work, resilience, and a deep commitment to excellence. As you join the growing community of anaesthesiologists as specialists, we look forward to your leadership in shaping the future of anaesthesia, critical care, pain medicine and perioperative medicine in East, Central, and Southern Africa.

I extend my sincere appreciation to the KSA leadership, the Scientific Committee, and the dedicated teams from both organisations whose tireless efforts have made this conference possible. Your work reflects the spirit of collaboration that lies at the heart of both CANECSA and our profession.

On behalf of the CANECSA Council and the entire College, I warmly welcome you to this Joint CANECSA-KSA Scientific Conference. May this gathering be enriching, inspiring, and impactful as we collectively pursue the vision of safer anaesthesia through the transformative potential of precision medicine.

Dr. Stephen Okelo
President, CANECSA

Welcome Message

Distinguished
guests,
colleagues,
Fellows, residents,
and friends,

Hallo everyone and a
very warm welcome to
Mombasa and to this year's
joint Kenya Society of Anaesthesiology and
College of Anaesthesiologists of East, Central
and Southern Africa (CANECSA) Scientific
Conference.

It is a great honour, on behalf of the Scientific
Committee, to welcome you all to this important
gathering of anaesthesia professionals from
across our region.

Our conference theme, "Advancing Safe
Anaesthesia: Precision Medicine," reflects
our shared commitment to improving patient
outcomes through innovation, research, and
evidence-based practice. As anaesthesia
providers, we stand at the core of perioperative
medicine — ensuring safety, comfort, and life-
sustaining care. The call to precision medicine
challenges us to tailor our interventions to the
individual patient, embracing data, technology,
and science to enhance safety and quality of
care.

This meeting provides an exceptional platform
to exchange knowledge, share best practices,
and strengthen regional collaboration. The
scientific program brings together experts from
Kenya, across Africa, and beyond, covering
advances in perioperative medicine, critical

care, regional anaesthesia, pain management,
and anaesthesia education.

We are particularly delighted that this
conference also marks a special celebration
— the graduation of new CANECSA
Fellows in Anaesthesia. To our new Fellows,
congratulations. Your achievement is a
testament to your dedication and the collective
effort to build a strong and self-sustaining
system for anaesthesia training and certification
in our region.

I wish to express sincere gratitude to the
organizing committee, the KSA Council, the
CANECSA leadership, and our partners and
sponsors for their tireless support in bringing
this conference to fruition.

To all participants, I encourage you to engage
actively — learn, share, and network. Together,
let us continue to advance safe anaesthesia
and strengthen the spirit of collaboration that
defines our profession.

Once again, welcome to Pride Inn Hotel,
welcome to Mombasa, and welcome to the
KSA–CANECSA Conference 2025.

May our discussions be productive, our
connections meaningful, and our vision for safe
anaesthesia ever stronger.

Thank you.

Dräger

This is what drives us:

Improving Acute Care

Perseus® A500 Anaesthesia

Our advanced integrated anaesthesia solutions offer precision & decision support for safe, patient-centric & streamlined workflow.

Highlights

Combine proven ventilation technology with the latest refinements in ergonomics and systems integration with an advanced anaesthesia platform designed together with experts from around the world to streamline your anaesthesia workflow.

Vista 300 Patient Monitor

The Dräger Vista 300 is an essential patient monitor for adults, paediatrics & neonates.

Evita® V600 Intensive Care Ventilator

Step into the future of ventilation with the Evita® V600. Designed for precision & efficiency, it delivers high-performance ventilation with an intuitive design. From lung-protective ventilation to seamless integration into intensive care workflows, it ensures optimal patient care at every stage.

Registration Entitlement & Programme Overview

The conference registration fee covers two teas and lunch for the duration of the conference, as well as the Gala Dinner on Thursday, 20th November 2025.

Programme Overview

Wednesday, 19th November (Pre-Conference Workshops)

Only participants registered for workshops need to be available on this day.

- Full-Day Parallel Workshops:
- Paediatric Pain Workshop
- Thoracic Anaesthesia Workshop
- Regional Anaesthesia Workshop
- Research Workshop

Thursday, 20th November (Day 1 – Conference)

- CANECSA Graduation Ceremony
- Track 1, Track 2, and Track 3 sessions
- Poster Presentation Session
- Annual General Meeting (AGM) – Open to KSA Members Only
- Gala Dinner – Representatives without tickets and accompanying persons are required to pay a supplement of KES 5,000.

Friday, 21st November (Day 2 – Conference)

- Track 1 and Track 2 sessions

Conference Registration Fees & Payment Details

Category	Early Bird Registration On or before 31st May 2025	Late Registration From 1st June 2025
Physician member of KSA	KES 25,000	KES 30,000
Physician non-member of Kenya	USD 250	
Non-physician Anaesthetists (Clinical Officer Anaesthetists, Nurses Anaesthetist)	KES 10,000 / USD 100	
Residents, Fellows, MOs, Non-physician Anaesthetist Trainees, Nurses, AAs, LMIC Delegates, Others	KES 7,000 / USD 70	
KEY: NPAs - Non- Physician Anaesthetists GAT - Graduate Anaesthetists in Training		

Workshops

1. Thoracic Anesthesia

2. Pediatric Pain Workshop

3. Regional Anesthesia Workshop

4. Research Workshop

PARADISE

SHANZU BEACH • MOMBASA

When one is looking to have a conference in Mombasa, Pride Inn Convention Center, Shanzu, Mombasa is where they go!

Be it a meeting in Mombasa, product launch or exhibition in Mombasa, our convention Centre has become internationally renowned for delivering flexible conferencing services in Kenya.

PrideInn Paradise Beach Conference Centre can hold a capacity of 2500 delegates. It's Ideal for international & local Conferences, large group workshops, seminars, trade shows, large group breakfasts, cocktail parties, product launches, luncheons, gala dinners, large group wedding receptions drop-down, and any other customized event.

Key highlights of the Resort

- Located on the Silver Sands of the North Coast
- The finest personalized services and facilities will be provided.
- Delegates and partners will always enjoy a warm, relaxed, yet refined welcome, stay, and ambiance.
- Large delegate capacity.
- It has multiple breakaway rooms.
- The area has affordable alternative accommodation.

At GE HealthCare, we are driven by our purpose to create a world where healthcare has no limits. Together, we're digitizing healthcare, driving productivity to improve the lives of patients, and creating meaningful efficiencies for providers, health systems, and researchers around the world.

- ~50k Employees around the world
- 160+ Countries in the world
- 11K+ Patents granted globally

Patient Care Solutions has a heritage of quality solutions and performance over the last 130 years. We organize ourselves into eight primary businesses. Five we call solutions businesses that deliver on our devices and technologies combined into solutions segments. Additionally, we have enabling businesses - digital, services and patient care consumables that support across all of these businesses.

Our anesthesia machines and workstations are equipped to enable personalized care and optimized safety. With a consistent user experience, you'll have real-time insights to inform your next step.

Pre-Conference Workshops

Kenya Society of Anaesthesiology (KSA) Thoracic Anaesthesia Workshop

Venue: Pride Inn Hotel, Mombasa

Time: 8:30 am – 1:00 pm

Theme: Advancing Safe Anaesthesia through Precision in Thoracic Practice

Workshop Objectives

- Perform appropriate preoperative evaluation of thoracic surgery patients.
- Demonstrate understanding and selection of lung isolation techniques (DLT vs bronchial blockers).
- Understand physiological changes during one-lung ventilation (OLV) and how to manage them.
- Practically perform lung isolation and troubleshoot OLV issues.
- Apply regional anaesthesia techniques for thoracic surgery (e.g., paravertebral block, erector spinae block, serratus anterior block).

Program Schedule

Time	Session	Speaker/Facilitator	Format
8:30am – 9:00 am	Registration	Secretariat	Informal
9:00am – 9:10 am	Opening & Workshop Overview	Moderator / Workshop Chair	Remarks
9:10am – 9:30 am	Preoperative Evaluation for Thoracic Surgery Patients	Consultant Anaesthesiologist	Didactic Lecture
9:30am – 9:50 am	Lung Isolation Techniques: DLT vs Bronchial Blockers	Consultant Anaesthesiologist	Lecture + Video Demo
9:50am – 10:10 am	Physiology of One-Lung Ventilation & Intraoperative Management	Consultant Anaesthesiologist	Lecture
10:10 – 10:30 am	Tea/Coffee Break	—	Networking
10:30 – 12:50 pm	Hands-On Rotations (4 Stations, 25 min each)	Faculty Facilitators	Practical Stations
	Station 1: Airway & Lung Isolation (DLT sizing, insertion, fiberoptic confirmation)		
	Station 2: One-Lung Ventilation Troubleshooting (desaturation, malposition, recruitment)		
	Station 3: Regional Anaesthesia for Thoracic Surgery (ESP, paravertebral, serratus blocks)		
12:50 – 1:20 pm	GE Healthcare solutions Presentation	GE Health care	—
1.20pm-1.40pm	Closing remarks	Workshop chair	

PAIN WORKSHOP PROGRAMME

LECTURES

TIME	LECTURES: 08.15 – 13.00	FACILITATOR
08.15 – 08.45	Introductions - Course overview - Overview of objectives	Dr. Mark Gacii
08.45 – 09.15	Pre- course test	All Faculty
09.15 – 09.45	Physiology of pain in children	Dr. Mwemezi Kaino
09.45 – 10.15	Pain assessment and diagnosis – Children vs adults – tackling common misconceptions about paediatric pain – introducing age-appropriate communication methods	Dr. Susane Nabulindo
10.15 – 10.45	TEA BREAK	
10.45 – 11.00	How does anxiety, both of the child and the parent affect pain perception	Dr. Shuweikha Salim
11.00 – 11.20	Introducing multidisciplinary approach to pain management in children Paediatrics, anaesthesia, psychology, nursing, physio and occupational therapy	Dr. Praxades Okutoyi
11.20 – 11.40	Non- pharmacologic pain management	Dr. Emma Mutio
11.40 – 12.10	Pharmacological management of pain	Dr. Emma Mutio
12.10 – 12.40	Overview of Central regional blocks in children – Joe Mugambi <ul style="list-style-type: none"> • Caudal block • Epidural block • Spinal block 	Dr. Joe Mugambi
12.40 – 13.00	Pain management in special populations	Dr. Lee Ngugi
13.00 – 14.00	LUNCH BREAK	

**BREAKOUT SESSIONS**

BREAKOUT SESSIONS: All faculty	
14.00 – 16.00	
Group A (30 minutes)	Ultrasound basic theory and needling (skill station)
Group B (30 minutes)	Analgesia infusion protocols and strategies (workshop)
Group C & D (60 minutes)	<p>Overview of anatomy and ultrasonography for common regional blocks in children (skills stations)</p> <ul style="list-style-type: none"> • Ilioinguinal/Iliohypogastric Block • Supraclavicular • Transversus Abdominis Plane (TAP) Block <ul style="list-style-type: none"> • Subcostal • Umbilical • Infraumbilical • Erector spinae block • Quadratus Lumborum Block • Common limb blocks
16.00	Summary of key points and distribution of certificates
16.30	Tea break and dismissal

KSA Annual Congress Regional Anaesthesia Workshop) 19th November 2025

8.00 – 8.30

REGISTRATION

8.30 - 9.00	Introduction to the ultrasound machine
9.00 – 9.20	Local anaesthetics and adjuvants
9.20 – 9.50	Neuraxial blocks- what's new and PEARLS
9.50 – 10.30	ESP and rectus sheath blocks
10.30 – 10.40	Q&A session

10.40 – 11.00

TEA BREAK

11.00 - 12.20	Upper limb blocks (interscalene and axillary)
12.20 - 12.30	Q&A session

12.30 – 1.30

LUNCH

1.30 – 3.00	Lower limb blocks (femoral, adductor canal, popliteal)
3.00 - 3.10	Q&A Session

Each scanning session will be split into 4-5 groups.

Each group shall have 4-6 participants.

Scanning sessions will be 40min per block

Measuring, Understanding, and Researching Respiratory Mechanics in Humans

Dr Idris Chikophe, Carolyn Mwangi

Target Audience:

1. Primary: Anesthesiology residents, critical care fellows, medical students
2. Secondary: Qualified practitioners in anesthesia, ICU and perioperative medicine
3. Tertiary: Biomedical engineers, physiologists with clinical interests

Learning Objectives

By the end of the workshop, participants will be able to:

1. Explain the physiological and clinical principles of respiratory mechanics in humans
2. Perform bedside and research-grade measurements of dynamic and static ventilator parameters.
3. Interpret measured data to inform patient care and generate research hypothesis.
4. Design a small-scale research protocol incorporating respiratory mechanics measurements.

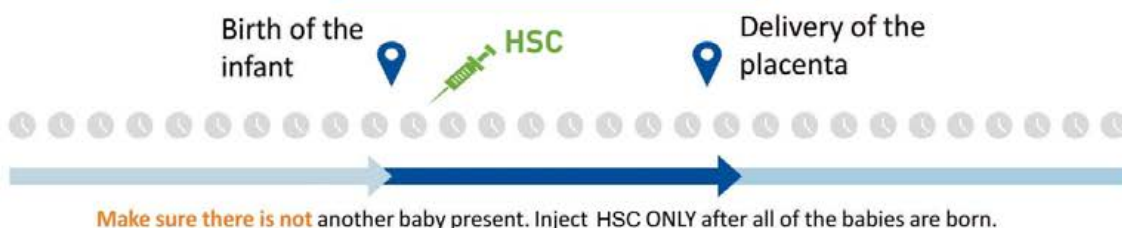

Time	Session	Content
08:00-08:15	Welcome	Introduction
08:15-08:45	Overview	Primary and derived respiratory mechanics
08:45-09:15	Hands-on: Measurements	<ul style="list-style-type: none"> Simulated clinical syndromes: Abdominal Compartment Syndrome; needs anesthesia machine, test-lung (smart lung), weights. Augmenting data/ synthetic data
09:15-10:00	From Numbers to Meaning	Exploratory data analysis
10:00-10:30	Break	Tea & Networking
10:30-11:30	Research Design in Respiratory Mechanics	<ul style="list-style-type: none"> PICO framing for a respiratory mechanic research question. Choosing endpoints and measurement tools. Power analysis for physiological studies. Pitfalls in measurement-based research.
11:30-12:30	Group work	Each group designs a small, feasible study on a respiratory mechanics topic based on generated data.
12:30-13:00	Industry talks	Q & A
13:00-14:00	Break	Lunch & Networking
14:00-14:45	Mini-Protocol Pitch	<ul style="list-style-type: none"> 5-minute presentation 5-minute Q&A Maximum 3 groups
14:45-15:15	Industry Presentation	
15:15-15:30	Closing	

Heat Stable Carbetocin (HSC)

HSC use for Prevention of PPH due to uterine atony

Uterotonic - HSC to be administered immediately after birth of infant

Third stage of labour

Administration

- Available as 1 ml ampoules in pack of 10
- One ampoule of 1ml (100 micrograms) is the dose for one patient
- Can be administered **IM or IV**
- The solution in the ampoule should **not be diluted** for use for intravenous IV and intramuscular IM injection

Dose- 1 ml (100 micrograms) administered intramuscularly OR Slow IV over 1 minute directly in the IV port

IV administration

For use only in health facility by a skilled birth attendant

Storage

Does not require refrigeration

Keep in the outer carton to protect from light

Use before the expiry date marked "Exp." on the pack

Heat Stable Carbetocin must NOT be used

- | | |
|---|--|
| <input checked="" type="checkbox"/> For labour induction or labour augmentation | <input checked="" type="checkbox"/> In women with hypersensitivity to carbetocin, oxytocin or any of the excipients according to the composition |
| <input checked="" type="checkbox"/> During pregnancy and labour before the childbirth | <input checked="" type="checkbox"/> In women with hepatic or renal disorders |
| <input checked="" type="checkbox"/> In women with serious cardiovascular disorders | <input checked="" type="checkbox"/> In women with epilepsy |

B. Braun is one of the world's leading manufacturers of medical devices, pharmaceutical products and services.

Through constructive dialog, B. Braun develops high quality product systems and services that are both evolving and progressive.

Improving people's health around the world.

Founded in 2014, Biocare Health Systems Ltd is a leading provider of medical equipment, devices, and consumables in Kenya. We specialize in the supply, installation, training, troubleshooting, repair, and maintenance of a wide range of hospital and laboratory equipment, including machines

for laboratory, theatre, and dental departments, as well as hospital furniture and diagnostics. Our commitment to quality and excellence has made us a trusted partner for over 500 healthcare facilities across Kenya and beyond. Partnering with top manufacturers, we ensure that our clients receive reliable, efficient, and high-quality medical solutions that enhance the seamless operation of healthcare services. At Biocare Health Systems, we are dedicated to delivering exceptional value and satisfaction to our customers through our unwavering dedication to quality and service.

Cachet Pharmaceuticals Pvt. Ltd is a leading Indian pharmaceutical company, and a subsidiary of Alkem Laboratories Ltd. The group ranks among the top 10 pharmaceutical companies in India. Cachet has a global presence in over 40 countries across 3 continents.

The group has several state-of-the art, manufacturing facilities. Each of the facility has a minimum of WHO-GMP approval. Other approvals within the group are US-FDA, UK-MHRA, PPB-Kenya, TFDA-Tanzania, NAFDAC-Nigeria, NDA-Uganda, FMHACA-Ethiopia, FDA Ghana, MOH Yemen etc.

Cachet offers a wide range of formulations, in acute and chronic therapeutic areas and is engaged in delivering health through innovation and quality since 1978.

The Critical Care Society of Kenya (CCSK) is a registered professional organization under the societies Act (CAP 108, Laws of Kenya) and a proud member of the World Federation of Intensive and Critical Care (WFICC). It unites healthcare professionals including physicians, nurses and

Exhibitors Profiles

allied health workers dedicated to advancing critical care medicine in Kenya. CCSK promotes excellence through professional development, research and collaboration with health authorities. Its key objectives include supporting continuing education, advising on policy and training, standardizing clinical practice and fostering research to strengthen critical care delivery and improve outcomes for critically ill patients in Kenya.

Computech Healthcare – Empowering Healthcare, Enriching Lives

Founded in 2016, Computech Healthcare is dedicated to advancing healthcare delivery through access to world-class medical technology. Partnering with global innovators like Nihon Kohden, we provide integrated critical care solutions designed for precision, reliability, and improved patient outcomes. Our commitment extends beyond equipment supply — we deliver end-to-end support through certified engineers, training, and regional expertise. With a focus on innovation and excellence, Computech continues to transform healthcare systems across East Africa, ensuring hospitals are equipped to meet evolving clinical demands and deliver superior care to every patient, every time.

The leading providers of medical devices and supplies within the region. We at Crown Healthcare are your ideal, one-stop destination for healthcare solutions. Whether you are looking to equip a medical Centre or execute a national project, we have the flexibility and experience to respond to healthcare needs at all levels. With operations

in five countries and a team of over 500 professionals, we aim to be your partners in delivering the best care to your patients by always providing you with timely, quality solutions.

This is what drives us: Improving Acute Care

As Your Specialist in Acute Care, we are committed to supporting you in improving clinical outcomes, managing costs, enhancing patient experiences and ensuring staff satisfaction. That's why, for over 125 years, we have been passionate about developing technologies, products, educational content and services for acute care that can help you achieve your goals

Our Vision and Commitment

"Helping to reduce the number of preventable deaths in hospitals is a pledge that I made. My personal goal goes beyond: Improving Acute Care with technologies and services that lead to therapy assistance and ultimately to hospital automation."

Ethypharm is a European pharmaceutical company specializing in Central Nervous System treatments, hospital injectables, and internal medicine. The company distributes its products across Europe, Asia, North America, the Middle East, and Africa. The Group employs 1,500 people. Ethypharm collaborates with authorities and healthcare professionals to fulfil our motto "Beyond our medicine, lives," - commitment to healthcare and patient well-being.

Exhibitors Profiles

Striving for excellence every day at Fresenius Kabi

All meaningful care comes down to people with the experience, expertise, and compassion to make a difference in the lives of those facing challenging situations. For us, care is a fundamental obligation, mission, and daily source of inspiration. It is the momentum that pushes us forward to help elevate the quality of life for both caregivers and those who need it most: critically and chronically ill patients. By providing essential medicines and technologies for infusion, transfusion, and medical nutrition, we are helping advance the future of healthcare, making it even more accessible, reliable, and in tune with current and future needs.

Our Vision 2026

To better expand our global business offerings and market position, we developed a strategic framework for the next decade: Vision 2026! Its plan involves broadening Biopharma, expanding MedTech, and rolling out Nutrition while building greater resilience in Pharma. Each field of expertise is characterised by its individual set of goals and success parameters. These range from further growth and ensuring global competitiveness, to measures that make us the employer of choice for a global talent pool. Vision 2026 is an integral part of our group's #FutureFresenius program. Within this frame we will continue to implement a wide range of business, innovation, and communication activities to advance our impact and relevance for the healthcare world.

In Kenya, Menarini International has partnered with Phillips Pharmaceuticals Limited as its sole local distributor.

Phillips Business Park, Mombasa Road
P.O. Box 46662-00100
Tel: 0722 888 938, 0733 612 000

Established in 1980, Nairobi X-Ray Supplies Ltd was the first fully dedicated medical equipment supply & service company in East Africa.

Part of the Vanguard group, we have been at the forefront of providing world class state of the art equipment, after sales service, and application training to the healthcare sector in East Africa for over 40 years. Our client base include leading private, governmental, missionary as well as not for profit healthcare institutions.

We have been key partners with various international organizations such as Japanese International

Cooperation Agency (JICA), GTZ and the World Bank, in actualization of turnkey solutions for the healthcare industry.

Our formidable presence in the market is a testimony to our unstinting commitment to ensuring we can deliver superior products, support, and services round the clock.

PharmaBavaria
International

Headquartered in Prien am Chiemsee in Bavaria/Germany, we work with regional and local affiliated partners in a broad range of territories. Our major affiliate and 2nd European hub is located in Estoril, Portugal

Our Credo, Quality First

Pharma Bavaria International guarantees highest standards of quality control to provide our customers with highest EU/German-Bavarian quality products at any time. Because every patient's health deserves the best healthcare accessible.

For the first time in Africa, Pharma Bavaria introduces, Combosiv i.v. It is a unique combination of Paracetamol 1g with Ibuprofen 300 mg in 100ml vial, indicated in perioperative pain management, with enhanced analgesia through the synergy of the two products. It is a first-line analgesia for moderate pain management in emergency and post-operative settings.

Combosiv i.v is a safe and well-tolerated multimodal pain-management tool. Its safety profile is equivalent to acetaminophen or ibuprofen without novel adverse effects reported and it also minimizes the NSAID dose thus reducing associated adverse events.

Pharma Bavaria International is also the manufacture of Parafusiv i.v (Paracetamol), Tafixyl Inj (Tranexamic acid) and Caden inj (Adenosine)

Exhibitors Profiles
